

Studio accessories - all around the subject

FOBA supplies complete systems for professional photographers. FOBA's main claim to fame include the FOBA COMBITUBE modular system, FOBA stands, tripods and heads, and FOBA ceiling rail systems ROOF-TRACK and MEGA-TRACK. However, FOBA also carries a comprehensive array of useful studio equipment:

FOBA shooting tables

Good studio tables take the hard work out of photography. FOBA carries several table types, designed by experienced specialists to satisfy even the most exacting photographer's requirements. Cast shadows are effectively neutralized, even with complex multiple lighting. FOBA tables harmonize perfectly with the well-known COMBITUBE-system, and therefore profit from this system's many modular components; lights and accessories can be set up, displaced or removed in no time at all, extensions are a mere twist or two away - and surrounding floor space remains uncluttered. The preformed, undulated acryl sheets are just ideal for shooting blended backgrounds and floating objects, considerably reducing time and therefore costs.

FOBA studio backgrounds

There is more behind good photography than lighting alone. FOBA keeps the background in mind and offers a versatile range of unrollers and stands to suit. FOBA also provides special-purpose backgrounds, such as the indestructible TT-Plast or Acrylglas accessories.

FOBA lamp stands

FOBA lamp stands are based mainly on the worldwide renowned, modular COMBITUBE-system. This gives them multiple functionality and great flexibility. There is almost no light position which cannot be achieved with one of FOBA's several lamp stands.

FOBA products are

- modular
- durable
- versatile

which means

- pleasant working conditions
- efficiency
- profitability

A variety of mobile or fixed roll stands are available for FOBA background papers.

FOBA supplies a wide variety of background material, either in rolls or as individual sheets.

Design with light with FOBA studio lamp stands. Their modularity makes them incredibly versatile.

FOBA shooting tables have proven their worth over the years. The preformed acryl sheets are just perfect to achieve blended and camaieu picture backgrounds, as well as shooting floating subjects.

Most products listed in this brochure are in matte black.

FOBA shooting tables can be fitted with casters for effortless transportation around the studio.
